# Estimasi HR dan SpO<sub>2</sub> dengan MAx30100

Kelompok 3 Eraraya Morenzo Muten (18320003) Kayyisa Zahratul Firdaus (18320011) Rahmat Yasin (18319001)

## Pendahuluan

Heart rate dan SpO2, merupakan suatu indikator dari kesehatan jantung dan paru-paru. Untuk mengukur nilai heart dan SpO2 dapat dilakukan menggunakan sensor MAX30100

## Studi Pustaka

#### **Heart Rate**

jumlah siklus jantung dalam satu menit

#### SpO2

jumlah oksigen dalam darah

#### MAX30100

sensor monitor heart rate dan integrated pulse oxymetry

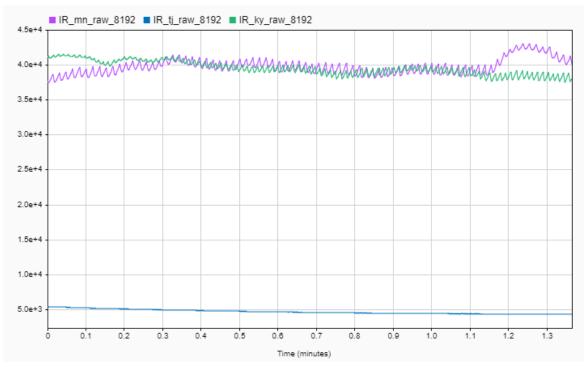

#### **PPG**

teknik pengukuran yang berbasis optik dengan memanfaatkan 2 buah LED

# Spesifikasi Alat

## **Data Mentah**

#### Durasi Perekaman

$$N = \frac{F_s}{f_r} = \frac{100 \, sps}{0.01667 \, Hz} = 6000 \, sampel$$

Dibulatkan ke  $2^n$  terdekat ->  $2^{13}$  = 8192

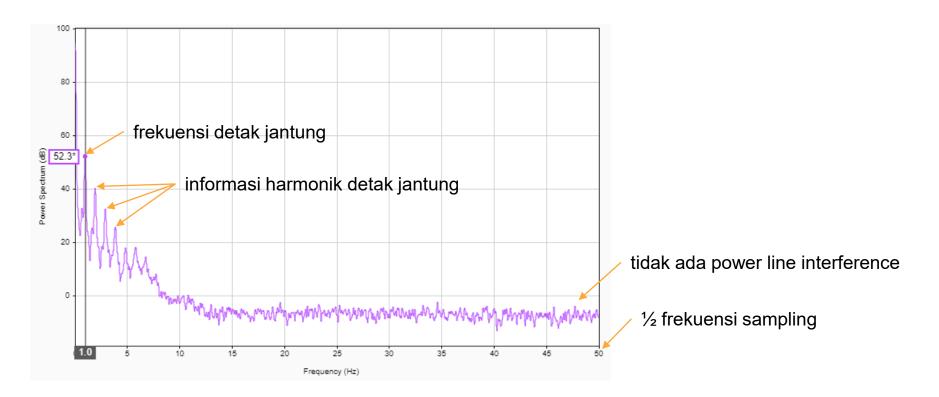

#### 3 Jenis Pengukuran:

• tj : tanpa jari

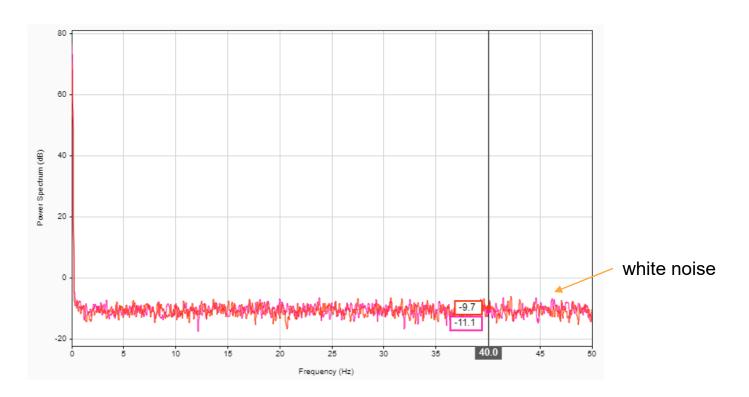

• mn : jari Moren

ky : jari Kay

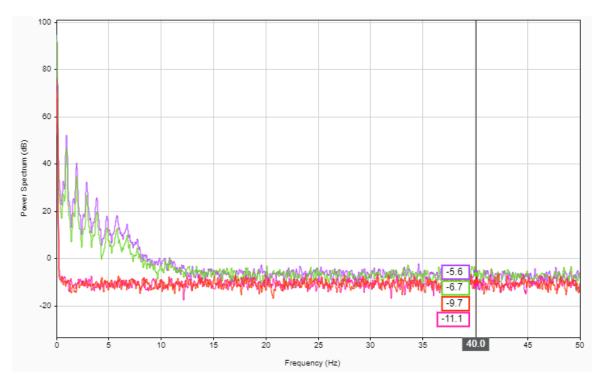

# **Analisis Spektrum Sinyal**

# **Analisis Spektrum Noise**

## **Desain Filter**

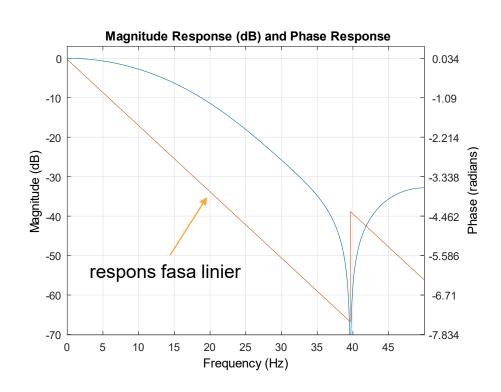

Sinyal biomedis
I-> Respons fasa linier
I-> Filter FIR

Harris Approximation

$$N \approx \frac{A}{22} \left( \frac{f_s}{\Delta f} \right) = \frac{10}{22} \left( \frac{100}{10} \right)$$
$$N \approx 5$$

Kemampuan komputansi Arduino UNO Rev 3 -> N=6

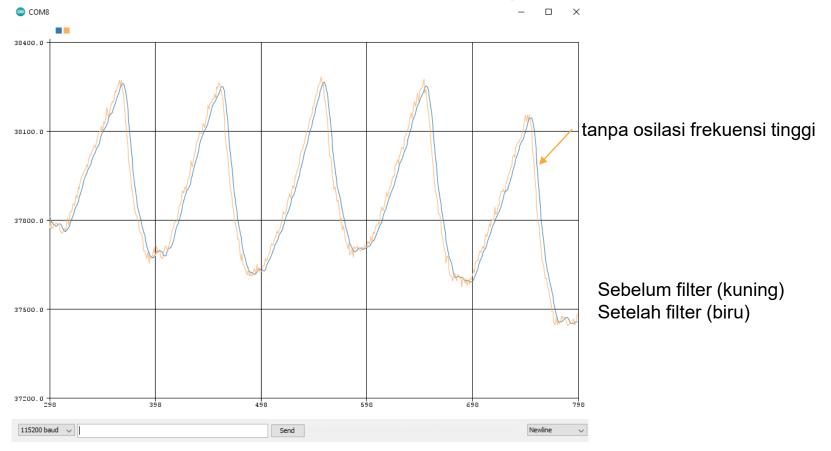

# **Lowpass Filter Hamming Window Orde 6**

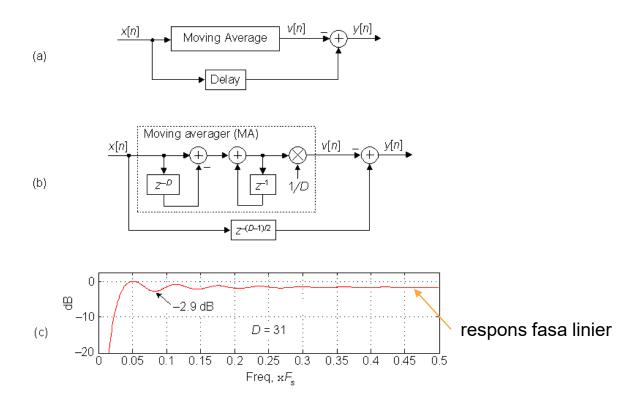

Harris Approximation

$$N \approx \frac{A}{22} \left( \frac{f_s}{\Delta f} \right) = \frac{10}{22} \left( \frac{100}{10} \right)$$
$$N \approx 5$$

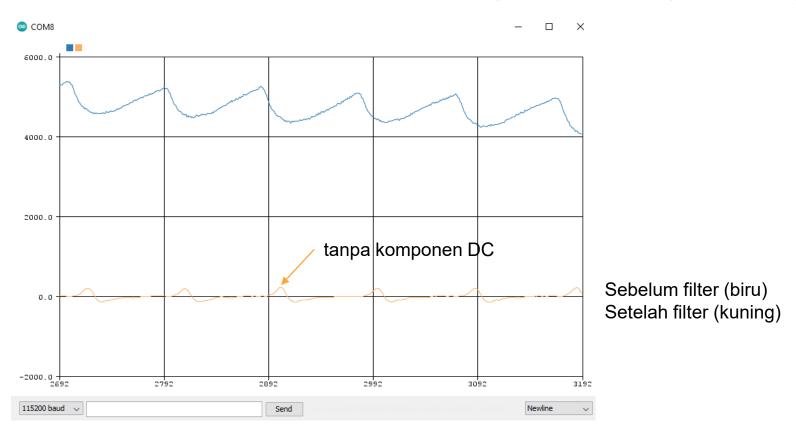

# Hasil Lowpass Filter Hamming Window Orde 6

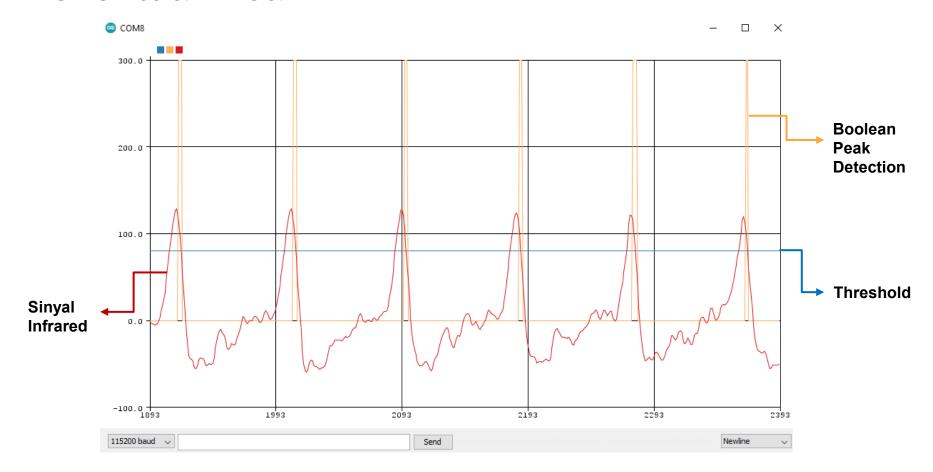

# DC Removal Filter dengan Moving Average

# Hasil DC Removal Filter dengan Moving Average

## **Penentuan Peak**

#### **Penentuan Heart Rate**

$$Heart\ Rate = \frac{60000}{\Delta t}$$

 $\Delta t = selisih$  waktu antara terjadinya 2 peak

### **Penentuan Pulse Oximeter**

Rasio dari log root mean square (RMS)

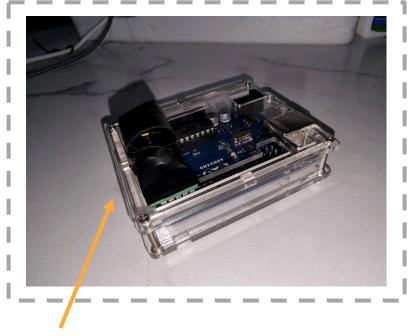

$$R = \frac{\log(I_{AC\_RMS})_{\lambda 1}}{\log(I_{AC\_RMS})_{\lambda 2}}$$

$$RMS = \sqrt{\frac{1}{n} \sum_{i=1}^{n} x_i^2}$$

Nilai SpO<sub>2</sub> dapat diregresi secara linier dalam persamaan berikut berdasarkan Beer-Lambert Model.

$$SpO_2 = a - b \times R$$

## Pengukuran dan Kalibrasi

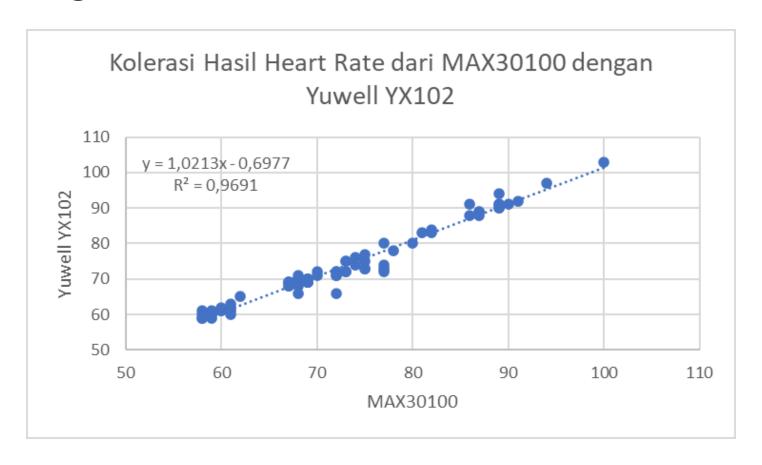

penutup dengan isolasi listrik

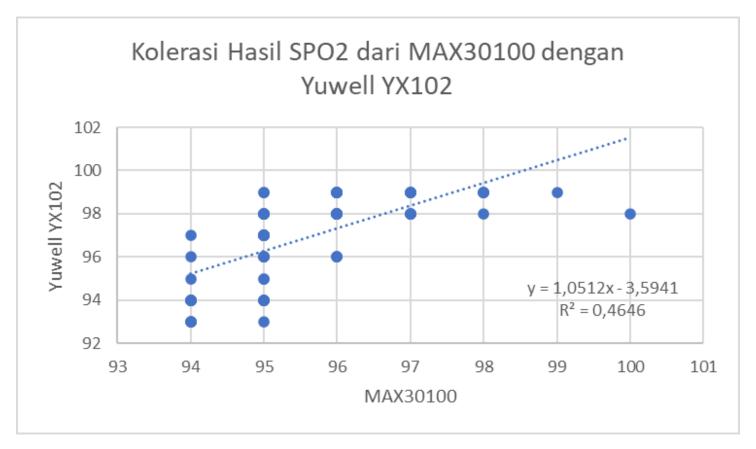

Pengukuran bersamaan

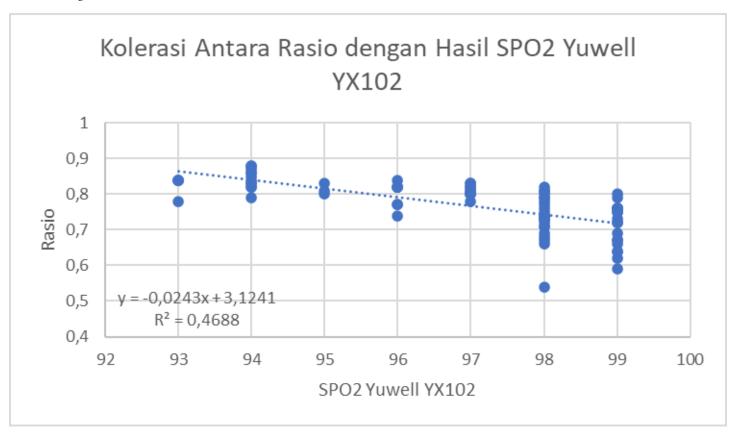

# Hasil Pengukuran Heart Rate

# Hasil Pengukuran SpO2

# Kalibrasi SpO2

# **Terima Kasih**
